## Mid Term Adjustments on ComQuote for Light Commercial Vehicles

Wrightway are delighted to announce that you can now process Mid Term Adjustments for Light Commercial Vehicles on ComQuote for VanPlan. This new functionality will work on any New Business policy inception on or after the **03 November 2014**.

MTA's on existing LCV policies will continue to be processed manually as before.

This is a great new enhancement and will help streamline processing for LCV's on ComQuote.

Click on the link below for our helpful guide on how to process MTA's

## Special Types New Business EDI

To further complement our suite of products on ComQuote we are launching our Special Types scheme which is underwritten by Zurich Insurance plc. Initially we have released this on a pilot scheme and it will be rolled out to all our Brokers by the end of November.

This will allow you to quote for the Special Types Class of Business (Tractors, Forklifts etc.) and to go on cover for New Business via EDI.

Our Special Types product is a perfect fit for the ComQuote system and a welcome development for both Wrightway and our Brokers.

If you have any queries please contact our Commercial Department
