2. Press Esc & B. Click on Select Lists. Click on 'Ok'

The screenshot shows the 'Select Lists' dialog box. The 'Select Lists' option is highlighted in the left-hand menu. The main area contains a 'Select List number' input field with the value '1' and the instruction 'Enter the required select list number in the range 1 to 5'. There are 'Ok' and 'Cancel' buttons at the bottom right.

3. Scroll down the list to find **Wrightway x Smart (ds)**. Ensure that the product is set to 'Yes'. If not just click on the product to set to 'Yes', then click 'Ok' (if you not using Open I arrow down to the product and press the space bar once)

The screenshot shows a table titled 'Select List 1 contains 10 insurers'. The table has three columns: 'Code', 'Scheme', and 'Selected'. The row for 'Wrightway x Smart (ds)' is highlighted with a yellow box and an arrow pointing to the 'Yes' in the 'Selected' column.
