Renewals with Amendments

As an added bonus Relay brokers can now sync our claims details to their own claims details through the 'Data Synchronisation' tab

Good news – Brokers can now process Renewals 'with amendments' for all Wrightway private motor policies.

Until now Brokers have had to accept the renewals and then process a mid-term adjustment to amend the risk, which we admit was a painful process!

Not only this but we have been working hard on all fronts to bring new developments to the market. We are launching a new MTA function on Comquote very soon, plus we have other exciting projects in the pipeline so stay tuned

We have listened to our Brokers feedback and because we want our Brokers to be happy we have moved a step forward to allow Renewals 'with amendments'. So from 1st April Brokers can amend the risk details, obtain an amended quote prior to renewal and then renew the policy in one simple step based on the new risk details.

Congratulations to our iPad winner

Wrightway are celebrating 15 successful years in business this year and as part of our celebrations we had a fantastic prize of an iPad Air to giveaway. Well done to Brenda Gorman of Sean P Matthews Insurance in Drogheda who was the lucky winner.

We would like to thank everyone who entered our competition. Keep in touch with us on Facebook and our website for further prizes later in the year.

Winner of the Best Product Producer Award 2013

Many thanks for all your support in 2013 and for voting us No. 1 in the Best Product Producer Category for the second year running.

“We are delighted to have won the Best Product Producer Award for 2013, our service to our brokers is the cornerstone of our business and I would like to take this opportunity to say thank you for all your support. We will continue to meet and hopefully exceed your expectations in 2014”
